

ATTORNEY AND COUNSELOR

JOHN C MOHYI

Licensed
in Michigan

Patent Holder

Lawyer, Inventor
and Entrepreneur

John is an interdisciplinary deep tech attorney, inventor, and entrepreneur with degrees in law, economics, and psychology as well as lean startup training from the UC Berkeley Executive Education Program through the Intel Startup and Hardware Accelerator Programs. His technical skills are reflected in his patented ducted counter-vortex radial impeller propulsion technology; memberships in the ANSYS Physics Simulation and NVIDIA Inception Artificial Intelligence startup programs; mentorship of a FIRST Robotics team; and his role as one of four legal researchers for the State of Michigan's Future Mobility Council for regulating automated vehicles.

John has a passion for complexity. He wears many hats and thrives in uncertainty. This makes him well suited for solving interdisciplinary problems.

EDUCATION

MICHIGAN STATE COLLEGE OF LAW
(J.D. MAY 2018)

WAYNE STATE UNIVERSITY
(B.A. WITH UNIVERSITY HONORS
DECEMBER 2011)

- Economics (Honors)
- Psychology (Honors)

WORK EXPERIENCE

John Mohyi is Of Counsel to the August Law firm. He is a multifaceted Michigan attorney, boasting a law degree from MSU College of Law and Honors Degrees in Economics and Psychology from Wayne State University. His legal expertise spans Litigation, Intellectual Property, Artificial Intelligence Law, and Entrepreneurial Law, among other fields.

John excels in the courtroom and is a thorough and creative legal researcher. As a forward-thinking legal researcher, John was part of an elite team for the Michigan Council on Future Mobility, where he assessed and recommended updates to the Michigan Motor Vehicle Code to accommodate autonomous vehicles. As an active community leader, John serves as a board member and secretary for the West Bloomfield Zoning Board of Appeals.

In the entrepreneurial realm, John co-founded and acts as chief legal Counsel for the mobile app Karmascore, and established Mohyi Labs – where he holds a patent for an innovative impeller-based propulsion system for drones and flying cars.

John's accolades extend beyond his legal achievements. He was a contestant on Intel's America's Greatest Makers (TBS, 2016) and a finalist in the National Inventors Hall of Fame Collegiate Inventors Competition (2016). Furthermore, John was a winner of the SxSW Lockheed Martin HeloPitch Competition, mentored for First Robotics, and featured on the History Channel's "Detroit: Comeback City" for his non-profit work with the Michigan Central Station Preservation Society. A skilled tradesman, John delights in restoring historic homes.

A sought-after speaker, John delivered keynotes at the 2017 Frost & Sullivan Intelligent Mobility Conference in London, discussing the future of "flying cars," and at the five-year anniversary of the USPTO's Elijah J. McCoy Midwest Regional Office in Detroit.
